(“Availability” does not equal the time allowed to complete the quiz.) The time allowed for each quiz will be determined by the number of questions on that particular quiz. (Approximately thirty minutes minimum will be provided.) The quizzes are intended to ensure students adequately cover material and areas in the assigned chapters. **It is advisable to read and study the chapters and any assigned readings before attempting the chapter quiz to be familiar with the material (to prevent a “blind” and hurried “hunt-the-answer” strategy which tends to be unsuccessful.)**

Retests and late testing will be allowed ONLY IF the SPC Blackboard system is down. Any student not completing a chapter quiz by the due date/time will receive a zero for that quiz.

Thirteen chapter quizzes will be conducted during the semester. The lowest chapter quiz scores will be dropped and the remaining twelve will be included toward the course grade.

Student Internet Responsibilities:

It is the responsibility of the student to make sure that they have the necessary computer resources and skills to take an online course. The academic instructors are not your computer instructors or technical advisors.

If your computer is down or an older slower machine, use computers in the SPC Levelland Technology Center, one of the computer labs or library at SPC Levelland or Reese, public library computers, or other dependable locations.

SOUTH PLAINS COLLEGE & CLASS POLICIES 2016

[Issued by the Office of Vice President for Academic Affairs]

Attendance, drops and withdrawals, and academic integrity:

Class Attendance: Students are expected to attend all classes in order to be successful in a course. The student may be administratively withdrawn from the course when absences become excessive as defined in the course syllabus.

When an unavoidable reason for class absence arises, such as illness, an official trip authorized by the college or an official activity, the instructor may permit the student to make up work missed. It is the student's responsibility to complete work missed within a reasonable period of time as determined by the

instructor. Students are officially enrolled in all courses for which they pay tuition and fees at the time of registration. Should a student, for any reason, delay in reporting to a class after official enrollment, absences will be attributed to the student from the first class meeting.

Students who enroll in a course but have “Never Attended” by the official census date, as reported by the faculty member, will be administratively dropped by the Office of Admissions and Records. A student who does not meet the attendance requirements of a class as stated in the course syllabus and does not officially withdraw from that course by the official census date of the semester, may be administratively withdrawn from that course and receive a grade of “X” or “F” as determined by the instructor. Instructors are responsible for clearly stating their administrative drop policy in the course syllabus, and it is the student’s responsibility to be aware of that policy.

It is the student’s responsibility to verify administrative drops for excessive absences through MySPC using his or her student online account. If it is determined that a student is awarded financial aid for a class or classes in which the student never attended or participated, the financial aid award will be adjusted in accordance with the classes in which the student did attend/participate and the student will owe any balance resulting from the adjustment.

Instructor’s Policy:

Student “Attendance:”

Any student failing to complete four (4) quizzes during the semester, or having no activity in the course for a ten day period, (holidays not included,) may be dropped from the course with either an “X” or “F” by the instructor.

If it is your misfortune to have a serious illness, either the student or family member of the student should contact all of his or her instructors and apprise them of the situation.

Chapter Quizzes:

Each chapter quiz will be approximately 20 to 40 multiple choice questions. (The number of questions may vary depending on the number of chapters.) Chapter quizzes will be timed, two attempt tests. (The higher score will automatically be recorded in the Blackboard Grade Book. Students will have at least a one week window of availability for each quiz. (“Availability” does not equal the time allowed to complete the quiz.) The time allowed for each quiz will be determined by the number of questions on that particular quiz. (Approximately thirty minutes minimum will be provided.) The quizzes are intended to ensure students adequately cover material and areas in the assigned chapters. **It is advisable to read and study the chapters and any assigned readings before attempting the chapter quiz to be familiar with the material (to prevent a “blind” and hurried “hunt-the-answer” strategy which tends to be unsuccessful.)**

Retests and late testing will be allowed ONLY IF the SPC Blackboard system is down. Any student not completing a chapter quiz by the due date/time will receive a zero for that quiz.

Fourteen chapter quizzes will be conducted during the semester. The lowest chapter quiz scores will be dropped and the remaining eleven will determine the course grade.

Student “Attendance:”

Any student failing to complete four (4) quizzes during the semester, or having no activity in the course for a ten day period, (holidays not included,) may be dropped from the course with either an “X” or “F” by the instructor.

If it is your misfortune to have a serious illness, either the student or family member of the student should contact all of his or her instructors and apprise them of the situation.

Student Internet Responsibilities:

It is the responsibility of the student to make sure that they have the necessary computer resources and skills to take an online course. The academic instructors are not your computer instructors or technical advisors.

If your computer is down or an older slower machine, use computers in the SPC Levelland Technology Center, one of the computer labs or library at SPC Levelland or Reese, public library computers, or other dependable locations.

Time Management:

The course demands study and quiz preparation almost every day due to the extensive amount of information covered in the 2305 Federal Government course.

In Fall and Spring semesters, it is recommended as a starting point to budget one hour of study for every hour of class time. With online classes, however, both class time and study time need to be scheduled. Students will spend 38 hours in class and 38 hours (minimum) studying during either the Fall and Spring semesters for a total of 76 hours. (Internet and some students need more study time to succeed and that should be factored in, as well. This additional time needed may add 50% to the required study time for a total of almost 120 hours during the fifteen weeks.) **For a five week course, the 120 hours calculates to an approximate average of 4.8 hours per day – five days a week.** Keep in mind, you will have to cover a minimum of 11 chapters and quizzes to successfully complete the course. **After your first two completed quizzes, honestly evaluate your quiz scores and efforts to determine how to adjust your study strategies and time to successfully complete the course.**

Internet students **must** exercise effective time management skills. **You must plan your study strategies, and budget time for all of the course requirements. *Leave yourself extra time before the due date/time (in case of emergencies or technical problems.)*** Waiting to the last minute for completion of the work tends to result in an unsatisfactory grade or a lost opportunity for the second attempt of a quiz.

Review and apply the “Study Guides for this Online Class” posted in the ‘Quick Start,’ ‘Syllabus’ folder and in the ‘Announcements’ to be aware of study skills, test preparation & test taking strategies to ensure your success in this class.

If you do not have the time available to devote to these course requirements, or are, honestly, not an effective time manager, you should consider taking this course in a classroom setting rather than risk either having to drop the course or earning an unsatisfactory grade.

Student Conduct, Misconduct, Academic Integrity, Cheating, Plagiarism and Appeals:

Violations of academic integrity, plagiarism and/or cheating will result in a grade of “0” for the test or assignment in question, and a reduction of the earned course grade or may result in a grade of “F” for the course. This syllabus and the South Plains College General Catalog 2015-2016, and SPC Student Guide, shall serve as the policy guideline for these issues.

“**Cheating:** Dishonesty of any kind on examinations or on written assignments, illegal possession of examinations, assisting others to cheat, alteration of grade records, illegal entry or unauthorized presence in an office or computer systems are examples of cheating. Complete honesty is required of the student in the presentation of any and all phases of course work. This applies to quizzes of whatever length, as well as to final examinations, to daily reports and to term papers.

Plagiarism: Offering the work of another as one’s own, without proper acknowledgment, is plagiarism; therefore, any student who fails to give credit for quotations or essentially identical

expression of material taken from books, encyclopedias, magazines and other reference works, or from the themes, reports or other writings of fellow student, is guilty of plagiarism.” – General Catalog 2016-2017

The appeals process as outlined in the General Catalog and Student Guide will apply. In general, students should attempt to resolve conflicts by first contacting the instructor. If this does not resolve the issue to the student’s satisfaction, then the student should contact the Chair of the Department. Subsequent courses of action are outlined in the Catalog and Student Guide.

Religious Holy Days: In accordance with Section 51.911, Texas Education Code, SPC will allow a student who is absent from class for the observance of a religious holy day to take an examination or complete an assignment scheduled for that day within seven (7) calendar days after the absence.

Students are required to file a written notification of absence with each instructor within the first fifteen (15) days of the semester in which the absence will occur. Forms for this purpose are available in the Student Services Office along with instructions and procedures.

“Religious holy days” means a holy day observed by a religion whose place of worship is exempt from property taxation under Section 11.20, Tax Code.

Diversity Statement:

In this class, the teacher will establish and support an environment that values and nurtures individual and group differences and encourages engagement and interaction. Understanding and respecting multiple experiences and perspectives will serve to challenge and stimulate all of us to learn about others, about the larger world and about ourselves. By promoting diversity and intellectual exchange, we will not only mirror society as it is, but also model society as it should and can be.

ADA Statement

Students with disabilities, including but not limited to physical, psychiatric, or learning disabilities, who wish to request accommodations in this class should notify the Disability Services Office early in the semester so that the appropriate arrangements may be made. In accordance with federal law, a student requesting accommodations must provide acceptable documentation of his/her disability to the Disability Services Office. For more information, call or visit the Disability Services Office through the Guidance and Counseling Centers at Reese Center (Building 8) [716-4606](tel:716-4606), or Levelland (Student Services Building) [716-2577](tel:716-2577).

July 18th** if you agree to the statement. *If you have any questions regarding the syllabus and course requirements, please contact Mr. English to resolve your concerns. Examine the personal responsibility expectations, course requirements, and due dates thoroughly to ensure you will have no conflicts in completing all of the assignments.*
